背景

Background

2024至25財政年度
政府財政預算案

103

政府將建立「數碼企業身份」平台，即企業版「智方便」，讓企業在使用電子政府服務或進行網上交易時可以安全、便捷地認證企業身份及核對企業簽署，免卻繁瑣流程，減省時間及人為錯誤。有關預算約三億元，目標是於二零二六年年底起逐步推出。

The Government will set up a “**digital identity of enterprises**” platform, i.e. the business version of “iAM Smart”, to enable authentication of identity and verification of signature of enterprises using electronic government services or conducting online business transactions in a secure, convenient and efficient manner without having to go through complicated procedures, thus saving time and reducing the risk of human error. The expenditure involved is estimated to be about \$300 million and our goal is to roll out the platform progressively from end-2026 onwards.
